Description

CLA or conjugated linoleic acid is a naturally occurring free fatty acid. Larger quantities can be found in red meat and milk products. CLA was already discovered in the beginning of the 20th century but the benefits as a supplement have only been discovered in the 90's.

Even though CLA does occur in meat and milk, the quantities consumed through these foods is not sufficient to achieve the beneficial effect of CLA. Concentrated CLA in capsule form can supply the necessary amount of CLA to achieve the desired effect.

Our CLA capsules contain 80% conjugated linoleic acid derived from Saffloroil

Content:	in 100 g	in 3 capsules
CLA	75,1 g	3000 mg

Properties					
Vegetarian	no	Lactose free	yes	Sugar free	yes
