### Description

**Arginin** is part of a variety of biochemical processes in our organs, cells and tissue and it is this essential for good health. L-Arginin is a proteinogenic amino acid which means that as a building block of protein, it promotes the building of muscle tissue which makes Arginin a popular choice for athletes.

In the blood vessels, Arginin is converted into nitrogen monoxide, a transmitter substance which promotes blood flow and protects from calcification of the arteries. Therefore, L-Arginin is an important tool for the prevention of artiosklerosis and for healthy arteries as well as the whole cardiovascular system. Arginin is also often used as a supporting measure in the fight against high blood pressure, high cholesterol or erectile dysfunction.

**L-Citrullin** is a non-proteinogenic amino acid and a precursor to Arginin. Citrullin enters the bloodstream through the lower intestine and gets

## L-Arginin und Citrullin combined in one capsule

then transported to the liver where it is converted into L-Arginin. Since this process takes time, it creates a long term effect which means that the Arginin content in the blood is kept on a stable level for an extended time period. Citrullin is therefore an ideal addition to Arginin.

Content	in 100 g	in 4 capsules	% NRV
L-Arginin	52,3 g	2352 mg	
L-Citrullin	30,3 g	1364 mg	

\* % NRV = % Nutrient Reference values (according to VO (EG) Nr. 1169/2011)

Properties					
Vegetarian	no	Lactose free	yes	Sugar free	yes
Vegan	no	Gluten free	yes	GMO free	yes

Recommended dosage
take four capsules daily with meals

Ingredients
L-Arginin Base (49%), Citrulin-DL-Malate (28%), microcrystalline Cellulose, Gelatine (bovine), Separating agent: Magnesium stearate

Allergens					
Milk	no	Eggs	no	Gluten	no
Sulfur	no	Fish	no	Crusteceans	no
Molluscs	no	Lupins	no	Soya Beans	no
Mustard	no	Celery	no	Sesame	no
Peanuts	no	Nuts	no
